India RE100 Localised Policy Messages

1. Remove regulatory barriers and implement stable frameworks to facilitate the uptake of corporate renewable electricity sourcing through Open (grid) Access and Rooftop Solar.

2. Work with utilities or electricity suppliers to provide a credible and competitive green tariff program that results in additional renewable energy procurement by corporate buyers.

3. Support a credible and transparent system for issuing, tracking and certifying competitively priced Renewable Energy Certificates for voluntary corporate renewable sourcing.

4. Promote direct investments in onsite and offsite renewable electricity projects by developers and businesses of all sizes and business park owners or operators.

5. Create an electricity market structure that allows for direct trade between corporate buyers of all sizes and renewable electricity suppliers.

6. Create market-based incentives for utilities to facilitate corporate renewable sourcing, including by gradually weaning utilities away from legacy thermal-based power purchase agreement (PPA) contracts.
